latex comfort

sempermed® latex comfort is a powder-free latex examination glove intended for single use in medical and occupational settings. With its lightweight design, it offers good tactile control and wearing comfort while meeting the required standards for barrier protection. The glove is suitable for routine procedures and high-frequency use.

High tactile sensitivity

Due to the elastic properties of natural latex.

Lightweight design

For comfortable wear and efficient use.

Textured fingertips

For secure grip in wet and dry conditions.

Protects users and patients from the transmission of infections

Glove material is resistant to blood and other body fluids, and protects against bacteria, fungi and viruses including SARS-CoV-2, Hepatitis B & C and HIV.
