vinyl comfort

Semperguard® vinyl comfort is a latex-free examination glove designed as a skin-friendly alternative for routine tasks. Free from natural latex proteins, chemical accelerators, and phthalates, it is suitable for users with type I and type IV sensitivities. The glove features a smooth surface and a synthetic inner coating for easy donning and wearing comfort. It is intended for short-duration applications with low mechanical stress in healthcare, cleaning, and general-purpose environments.

■ Dual labeled

Suitable for medical use and as personal protective equipment for minimal risks, supporting infection prevention and hygiene control in professional environments.

■ Skin-friendly

Manufactured without the use of natural latex, chemical accelerators and phthalates, making it suitable for sensitive skin and users with type I and type IV sensitivities.

■ Great value

Economical choice for those in need of latex-free medical gloves and particularly suitable for activities with short wearing times and minimal stress on the glove.

■ Comfort

The glove's smooth surface has a comfortable feel and its synthetic inner coating allows for fast and easy glove donning.
